

Grading Policy

The final grade will be based on the following components:

- **Attendance:** 10% (TA will randomly select a few sessions to record attendance)
- **In-class quizzes:** 10%
 - Some instructors may conduct short quizzes during their lectures.
- **Project:** 40% (presentation) + 40% (report)

Project Guideline

Each group is required to complete a project on a specific topic related to the course.

1. Project Presentation (40% of the total grade)

- Each group will give a **20-minute presentation**.
- Presentations will be scheduled for the **last two classes**
- The presentation should clearly introduce the motivation, background, key research challenges, research opportunities, and your preliminary results (optional).
- **Everyone should be a presenter.**

2. Project Report (40% of the total grade)

Each group must submit a **technical project report**.

Format Requirements

- The report should be written in a **two-column format**.
- The maximum length is **7 pages**.
- There is **no minimum page requirement**, but the report should be sufficiently complete and well-structured.
- Please follow the style of *IEEE Wireless Communications* as a reference:
<https://ieeexplore-ieee-org.eproxy.lib.hku.hk/xpl/RecentIssue.jsp?punumber=7742>

Expected Content

The report is expected to address the following points:

1. **Importance of the direction/problem**
Explain why this research direction is important.
2. **Background**
Provide necessary technical background and context.
3. **Research gap**
Identify limitations or gaps in the existing literature.
4. **Future research opportunities**
Discuss potential future directions from your own perspective.
5. **Optional component (bonus)**
Demonstrate your idea using simulations, experiments, case studies, or preliminary results.

In addition, **the report must include a brief description of the contribution and responsibilities of each group member.**

3. Topic Selection

Project titles must be determined jointly by the instructor and students. Please ensure that your project topic is related to one of the following themes:

- **Networks for AI**
- **AI for Networks**

Once your group has decided on a title, please send it to the TA, **Mr. Tao Li**, at:

lthku999@connect.hku.hk

The title should be submitted by **July 24**. The teaching team will review the proposed title and contact you if the topic or scope is not appropriate by July 25.

4. Submission Guide

- The project presentation will take place in the **last two classes**.
- The presentation slides and technical report must be uploaded to Moodle **within 7 days after the last teaching day**; Each group only needs to submit **one slide set and one technical report** via a group member.
